PRODUCT INFORMATION

MS SYNERGY CONCENTRATED LOW SUD LAUNDRY POWDER DETERGENT

DESCRIPTION

MS SYNERGY is a concentrated low sud laundry powder detergent developed exclusively to provide effective cleaning power to remove stubborn stains for use in commercial and institutional laundries. Its low sud property has savings in the usage of water for rinsing as sud and detergent residue can be removed with ease and less water compared with other forms of laundry detergent. Its high solubility will dissolve in the wash water in the shortest possible time. It also contains optical brighteners to protect and brighten laundries, making them look cleaner.

TYPICAL APPLICATION

For cleaning laundry

DIRECTIONS FOR USE

1. Use 1-2 scoops (30gm per scoop) of the powder to about 5-7 kg of soiled laundry.
2. For heavily soiled laundry add another spoonful to the wash.

SPECIFICATIONS

| | | |
|-----------------|---|--|
| Appearance | : | White Fine powder |
| pH (1% Sol'n) | : | 10.5 – 11.5 |
